LYDIA DANI DEULI

Network Technician

0786565509 | Dar es Salaam, Tanzania | lydiaddeuli@gmail.com

PROFESSIONAL SUMMARY

Final-year Bachelor of Science in Computer Systems and Network student at Ardhi University with practical experience in network infrastructure, telecommunications, and fiber-optic operations. Gained hands-on experience during industrial training at Tanzania Telecommunications Corporation (TTCL) in the Access Network section, including fiber-optic troubleshooting, router configuration, remote network monitoring, and access-network support. Seeking an ICT/Telecommunications internship where I can apply my technical knowledge, support day-to-day operations, and continue developing practical skills.

TECHNICAL SKILLS

Computer Networking: IP addressing, subnetting fundamentals, VLANs, routing fundamentals, DHCP, DNS

Network & Telecommunications: Access networks, GPON concepts, OLT, ODF, PoP, BNG, router configuration, network troubleshooting

Fiber Optics: Fiber fault identification, OTDR/OPM operation, splicing, cleaving, patching, and fiber handling

Network Tools: MobaXterm/SSH, Wireshark, ping, traceroute, and basic Linux networking commands

Operating Systems: Windows and Linux fundamentals

Documentation & Reporting: Microsoft Word, Microsoft Excel, and technical report preparation

WORK EXPERIENCE

Tanzania Telecommunications Corporation (TTCL) – Access Network | July 2025 – September 2025

- Participated in customer site surveys and basic assessment of access-network connectivity.
- Assisted in identifying and troubleshooting fiber-optic faults using OTDR and OPM.
- Gained practical experience in fiber splicing, cleaving, patching, and fiber color-coding standards.
- Assisted with customer router configuration, including IP addressing, VLANs, gateway, subnet mask, and Wi-Fi settings.
- Used MobaXterm/SSH to remotely access network devices and perform basic connectivity checks using commands such as show interface, show ip route, ping, and traceroute.
- Gained practical exposure to GPON, OLT, ODF, PoP, BNG, NICTBB, and related access-network infrastructure.
- Used Excel-based records to monitor and determine network link status.

EDUCATION

Ardhi University | 2023 – 2026

Bachelor of Science in Computer Systems and Network

Morogoro Secondary School | 2021 – 2023

Advanced Certificate of Secondary Education (ACSEE)

St. Ann's Girls Seminary | 2017 – 2020

Certificate of Secondary Education (CSEE)

PROJECTS

IT Intelligent Career Placement Management System – Web-based academic project

- Designed a system concept for managing student internship and field-training opportunities, applications, allocation, and placement tracking.
- Focused on role-based access, digital student profiles, company opportunities, application workflows, and reporting.
